"The automotive maven and former Member of Parliament might be the most trusted man in Canada, an inverse relationship to the people he writes about."  
– The Globe and Mail Lemon-Aid shows car and truck buyers how to pick the cheapest and most reliable vehicles from the past 30 years of auto production. This brand-new edition of the bestselling guide contains updated information on secret service bulletins that can save you money. Phil describes sales and service scams, lists which vehicles are factory goofs, and sets out the prices you should pay. As Canada's automotive "Dr. Phil" for over 40 years, Edmonston pulls no punches. His Lemon-Aid is more

potent and provocative than ever.

Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles

rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

For the first time in one volume, Phil Edmonston, Canada's automotive "Dr. Phil," covers all used vehicles, packing this guide with insider tips to help

the consumer make the safest and cheapest choice possible from cars and trucks of the past 25 years.

Worldly decisions by those wielding power to set rules make things happen the way they do and can't even sometimes guarantee the desired results yet they are inevitable. We are not residing in the best of times as things are spiraling out of control around the world and if different decisions had been made the world would peradventure been a better place. Be that as it may, we need to question whether decisions made by the rich and powerful follow sound reasoning. Only by doing this is when we can enforce remedial action from governments, corporations and international

organizations. Without our intervention, we will always be victims of those who possess greater abilities to make decisions and who tell us things happen the way they do and that nothing can be done about them however unjust and unpleasant they may seem. "Why are Dumb People RICHER than You?," is more than an introductory economics textbook, a lot easier, accessible to non-specialist readers and will give you deep insights on how to confront these issues and highlights how the world works and how it can be made to work better. Unless we comprehend this, we will not be able to champion for our own interests, let alone doing the common good as active economic citizens and what some Dumb people have
