Advances in Behavioral Finance, Volume II.
Book Description: This book offers a definitive and wide-ranging overview of developments in behavioral finance over the past ten years. In 1993, the first volume provided the standard reference to this new approach in finance--an approach that, as editor Richard Thaler put it, "entertains the possibility that some of the agents in the economy behave less than fully rationally some of the time."

Advances In Behavioral Finance 1993

A SURVEY OF BEHAVIORAL FINANCE Nicholas
Barberis and Richard Thaler 1. Introduction

The traditional finance paradigm, which underlies many of the other articles in this handbook, seeks to understand financial markets using models in which agents are "rational." Rationality means two things. First, when
