THE BSA BANTAM LIBRARY. Welcome to the site. Over the past few years I have cobbled together a collection of literature pertaining to the BSA Bantam motorcycle. I intend to use this site to make this information freely available for enthusiasts to use, rather than being ripped off by some bandit selling a bad photocopy for an extortionate fee.

If you want to droll books, lots of novels, tale, jokes, and more fictions

Bsa Bantam Engine Manual - morganduke.org

The BSA manual specifies an end gap of .009" (minimum) .013" (maximum). If the end gap is .007" or less, the ends must be filed carefully to obtain the correct minimum gap. When refitting the piston to the conrod it is most important to have the piston ring gaps at the front, ie numbers one and three will appear nearest the front on the nearside of the engine, as below:

My 1966 BSA Bantam D7 Super Restoration - Service manual

Both the engine and frame numbers, together with prefix and suffix letters, must be quoted in full on any correspondence relating to the machine or on any enquiry regarding this manual. The engine number is stamped on top of the crankcase immediately below the cylinder. The frame number is stamped on the front engine mounting plate. Page 6

WORKSHOP MANUAL for D14/4 models BANTAM SUPREME BANTAM ...

BSA Al's tips were very good and are all you need if you do not want to spend, spend, spend. One further tip is that you cannot put material back on if you take too much off. BSA's only concession to performance improvement before the D10 and later range was the introduction of optional close ratio gears. I think George Todd also made them as well.

BSA - Baxter Cycle

The BSA Bantam is a two-stroke unit construction motorcycle that was produced by the Birmingham Small Arms Company (BSA) from 1948 (as a 125 cc) until 1971 (as a 175 cc). Exact production figures are unknown, but it was over 250,000 [citation needed] and some estimates place the number closer to half a million. [citation needed]
