Case studies have become a widely-used instructional tool in many educational environments. The use of case studies began in the 1950s at Harvard Business School. Today, they may be used as part of a course of study, or as the main focus of a course, to which other material is added. While the use of case studies is prevalent in schools of business and medicine, they are not often used in adult education or human resource development. This may be because there are no current major publications that deal with the use of case studies in these disciplines; nor are there any major databases of adult education or human resource development case studies for instructors to use. Good case studies can bring reality into the classroom. They can provide frameworks for discussion based on issues that must be faced in real life. Complex case issues can be broken down and examined for greater understanding, then pulled together again for resolution. Case studies can be used successfully in adult education. I propose a book based on the use of case-based learning in adult education and human resource development (HRD). The book could be positioned as a supplement to course textbooks for courses in adult education and HRD. I would write the cases and develop the exercises, but could also get others to contribute a case study or exercise to the book. Cases would each be a half-page to maybe 2-3 pages at the long end, and would include questions for students/readers. Supplementary information (possibly in the form of a DVD) could be put together for instructors. This information would include case study focal points and examples of possible responses for each study/exercise.

A compilation of human resource management case studies highlighting some of the contemporary issues and practices in the major processes of human resource function. The Global Human Resource Management Casebook is a collection of business teaching cases, focusing on Human Resource Management issues around the world. Each case is based in a single country and illustrates one or more significant challenge faced by managers and HR practitioners. The influence of the unique national cultural and institutional context upon the issues in the case is emphasized. In total 32 unique and original cases are presented, each from different national contexts. Every case is followed by a set of questions for use in class discussion or private study of the cases. This casebook is a project undertaken by a committee of international members of the Human Resources Division of the Academy of Management (USA). The HR Division currently has over 3500 members worldwide, indicating a significant immediate audience for the text. The committee, referred to as the HR Ambassadors Committee (James Hayton, Chair) is intended to represent the global membership of the organization. We currently have members in over 60 countries, and Ambassadors for over 50 of these. The committee was established to contribute to the internationalization of the HR Division and the Academy of Management by creating collaborative projects that both involve and serve the global membership. This book, which represents the first product of our collaboration, is expected to provide a useful teaching tool for HRM educators, and secondarily is expected to be of use to HR practitioners with an interest in the globalization of HRM.

This comprehensive book offers a fascinating set of over 40 evidence-based case studies derived from international research on work, employment and human resource management (HRM).

Conducting business across national borders is nothing new: the Knights Templar were banking internationally as long ago as 1135. But modern globalization processes raise different challenges, and as the world becomes smaller and labour movements more common, an international understanding of human resource management is essential. The second edition of International HRM provides a fully updated and revised analysis of this important area. Its innovative, multi-disciplinary approach allows a holistic picture to emerge in which key issues are assessed from organizational, individual and societal perspectives. The collection is divided into three parts: the contemporary internationalization context the management of international employees strategic issues facing international HR managers. Supported by new research, and including work from eminent writers in the field, this book discusses issues as diverse as the relative absence of women in international work, the ethical merits of localization, and the context faced by organizations like the United Nations. It is a valuable tool for all students, researchers and practitioners working in international business and human resource management.

Cases in Human Resource Management provides students with insights into common challenges, dilemmas, and issues human resource managers face in the workplace. Using a wide variety of well-known companies and organizations, author David Kimball engages students with original, real-world cases that illustrate HRM topics and functions in action. Each case is designed to encourage students to find new solutions to human resource issues and to stimulate class discussion. Case questions challenge students to think critically, apply concepts, and develop their HRM skills. The contents are organized using the same topical coverage and structure as most HRM textbooks, making Kimball the ideal companion for any introductory HRM course.

This case, based on a fictional UK-based organization, gives learners the opportunity to think about key decisions involved in international assignments and to transfer their knowledge of domestic HR issues to an international context. Students will learn about the main elements and issues related to international assignments; when it is appropriate to use expatriate workers; the skills and knowledge needed by expatriate workers; and how organizations can prepare expatriate managers to succeed in an international assignment. A brief PowerPoint file with instructional materials about international assignments accompanies this case.
