Over the last few years the technologies employed in the production of dry pasta and semolina have changed dramatically. This highly practical book examines these changes and gives commercially relevant information to the reader in the areas of durum wheat, semolina production, pasta mixing and extrusion, shape design and quality assurance. Written principally for food technologists working with pasta as an end product or as an ingredient, this book is also an essential reference source for academic, research and teaching institutions.

The primary purpose of the Manual of Classification of Motor Vehicle Traffic Accidents is to promote uniformity and comparability of motor vehicle traffic accident statistics now being developed in Federal, state and local jurisdictions. This manual is divided into two sections, one containing definitions and one containing classification instructions.

Restoration is one thing. Correct restoration is quite another! This extensively researched, beautifully illustrated book describes in detail the correct paint and decals for your Letter Series or McCormick-Deering tractor. Filled with factory drawings indicating decal placement, instructions for factory paint and finish of individual parts, and more for the Farmall A, B, C, H, M, and Cub; the McCormick-Deering -4, -6, and -9; and the Super Series and -TA tractors.

A motley crew of saboteurs wreak outrageous havoc on the corporations destroying America's Western wilderness in this classic, comic extravaganza. When George Washington Hayduke III returns home from war in the jungles of Southeast Asia, he finds the unspoiled West he once knew has been transformed. The pristine lands and waterways are being strip mined, dammed up, and paved over by greedy government hacks and their corrupt corporate coconspirators. And the manic, beer-guzzling, rabidly antisocial ex-Green Beret isn't just getting mad. Hayduke plans to get even. Together with a radical feminist from the Bronx; a wealthy, billboard-torching libertarian MD; and a disgraced Mormon polygamist, Hayduke's ready to stick it to the Man in the most creative ways imaginable. By the time they're done, there won't be a bridge left standing, a dam unblown, or a bulldozer unmolested from Arizona to Utah. Edward Abbey's most popular novel, *The Monkey Wrench Gang* is an outrageous romp with ultra-serious undertones that is as relevant today as it was in the early days of the environmental movement. The author who Larry McMurtry (Lonesome Dove) once dubbed "The Thoreau of the American West" has written a true comedic classic with brains, heart, and soul that more than justifies the call from the Los Angeles Times Book Review that we should all "praise the earth for Edward Abbey!"

The second edition provides engineers with a conceptual understanding of how dynamics is applied in the field. It builds their problem-solving skills. New problems with a wider variety of difficulty levels and applications have been added. An online problem-solving tool is available to reinforce how to find solutions. New images are included to add a visual element to the material. These show the link between an actual system and a modeled/analyzed system. Engineers will also benefit from the numerous new worked problems, algorithmic problems, and multi-part GO problems.
