Innovations with
others, creating
user-innovation
communities and a
rich intellectual
commons. In
Democratizing
Innovation, Eric
von Hippel looks
closely at this
emerging system
of user-centered
innovation. He
explains why and

Bookmark File

PDF Custom

Manufacturing Solutions

when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all. The trend toward democratized innovation can be

Bookmark File

PDF Custom

seen in software

and information

products—most

notably in the free

and open-source

software

movement—but

also in physical

products. Von

Hippel's many

examples of user

innovation in action

range from surgical

equipment to

Bookmark File

Manufacturing

surfboards to software security features. He shows

that product and service

development is concentrated

among "lead users," who are ahead on

marketplace trends and whose

innovations are often commercially

Bookmark File

PDF Custom

attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom semiconductor

Bookmark File

PDF Custom

Manufacturing

Solutions

Industry is one example—that have learned to assist user-

innovators by providing them with toolkits for developing new products. User innovation has a positive impact on social welfare, and von Hippel proposes that

Bookmark File

PDF Custom

Manufacturing

government policies, including R&D subsidies and

tax credits, should

be realigned to

eliminate biases

against it. The goal

of a democratized

user-centered

innovation system,

says von Hippel, is

well worth striving

for. An electronic
