Jenny doesn't carry bags of groceries, she wears an expensive leather jacket, shiny motorcycle boots, and rides a yellow Ducati, a Panigale Tricolore. She enjoys her financial freedom, when she is not riding, she is swimming in her 25 meter heated pool. During a high speed chase on Angel Crest Highway, she meets a super bike buddy, the man with the Augusta. She invites him to her Tuscan style villa where they swim and argue like they have been knowing each other forever, but she wonders why nothing else really happens. A yacht escape to the Channel Islands with her best friend and the new buddy sounds like the perfect week end plan, well, not really. The boat gets impounded, the enigmatic man has disappeared, and whats left of him is just his super bike. Who was he, and what happened to him.

There's one thing missing in Ella Harvey's life--her biological father. All she has is a few clues in a little box and a mother not willing to share anything. Add in her impatience and stubbornness and Ella decides to go about finding him herself. Then there's Zane. He's used to barrelling his way through life without too much stress. He has a great family, a new career path and a beloved Ducati motorcycle. When tasked with searching for Ella's father, Zane discovers a secret that threatens to unravel their lives. The attraction between Zane and Ella is flaring up quickly, but all will go up in flames if Zane doesn't tell Ella what he knows. Ella finds out the hard way that searching for the truth doesn't always go to plan. She'll bundle up Zane's heart, wrap it up tight and hand it back to him. Problem solved and no one gets hurt. But Zane won't give Ella up. To keep the gorgeous Ella by his side, he had to find her father. To keep the woman he's now fallen in love with, he'll have to save her mother. Will the unexpected twist that comes their way be enough for the head-strong Ella and Ducati-loving Zane to find their way back onto the same path?

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.

Motojournalist Peter Jones tells all in *The Bad Editor*, *Collected Columns* and *Untold Tales of Bad Behavior*. This 250-page book reveals the inside story of a motojournalist's life inside the USA motorcycle industry. The book was created to be irreverent entertainment for motorcycle enthusiasts, not to even scores, vent anger, or be hard-hitting muckraking journalism. In this book, no names are mentioned, brands identified, or world problems solved. The 30 *Collected Columns* in this volume first appeared, in slightly different forms, in *SportRider Magazine*, *American Roadracing Magazine*, *Motorcycle Street & Strip*, *Speed.com*, and *Motorcyclist*. The 19 *Untold Tales of Bad Behavior* are original to this book. This is the first published collection of moto-writings by Peter Jones, a familiar voice to many motorcycle enthusiasts due to his 20-plus years of motorcycle reviews, columns and lifestyle editorials in numerous periodicals. Jones is known to be a dubious writer who chooses his friends poorly and who has failed to be a positive ambassador for motorcycling.

A deep analysis of America's boutique design and engineering shops where dream motorcycles - road racers to touring - are conceived and created?proving that arguably America now leads the world.

For the new rider, the returning rider, and the veteran who's looking for more information, this handy book has it all: the necessary facts on street-riding from first to last, clearly and concisely laid out. Author Bill Stermer brings an insider's knowledge to the job, and the result is an expert, user-friendly guide to selecting, equipping, understanding, and using a street motorcycle?with occasional useful detours into such topics as road food and tunes, security and first aid, staying warm and dry, carrying laptops or cameras, and shipping your bike. From a close survey of the types of street motorcycles and different engine configurations, Stermer goes on to discuss features and options, accessories and apparel, mechanical considerations (from power and suspension to detailing and tires), and using a motorcycle in a group or alone or with a passenger, to commute or camp, for rallies or tours.
