When a fast-living EMT is entrusted with the power to sense and siphon pain from others, Syllas is presented with a new purpose: to ease the misery of those around him. But the more he uses this gift, the more it curses him with carrying the burdens of others' pain. And it soon attracts the attention of mysterious forces who covet the power for themselves, forcing Syllas to decide whether he will continue his mission or revert to his old ways. Comic book documentarian Patrick Meaney (Grant Morrison: Talking with Gods, The Image Revolution) teams up with artist Jeff Edwards (G.I. JOE) with a story by Mohsen Ashraf for a creator-owned, noir fantasy evoking the lore of Neil Gaiman's AMERICAN GODS and the psychological thrilling action of M. Night Shyamalan's UNBREAKABLE. Demand Responsive Approaches give the village communities the power to choose which type of technology they want for their water supply facilities. They are also responsible for the management of the systems and have to take into consideration costs for operation, maintenance and major repairs as well as the reliability. To arrive at a sensible choice it is necessary that the communities are aware of the technical, financial and institutional implications of their technology choice. This book gives information on the different technology options for pumping water (point sources or piped systems) in an easy-to-read format. It lists possible managerial models for
