Letter From the Editor, 2012Dear Reader, Thank you for picking up this magazine. Inside you will find a world of wonders. If you are like most people you will flick through and look at the art first. We are proud to feature gallery prints from iconic photographer Kim Weston. The art editor and I met Kim a few years ago at the Henry Miller Library over dinner, and have been trying to get his beautiful photographs in our magazine ever since. Our commitment to keeping this delicate ecosystem in check is part of why this year we have launched into our capital fundraising campaign, in an effort to retrofit Emil White's little cabin into a place that hosts such acts as Thurston

Pam Wedgwood has been inspiring teachers and pupils through her work in music education--as composer, teacher and performer--for more than thirty years. In this piano method book for the older beginner, she has arranged a mix of familiar classical and traditional themes interspersed with her innovative original compositions. Music theory and terminology with lots of emphasis on chords is included. This piano method book uses the British system of terminology for rhythmic values such as "crotchet" for quarter note.
