The scale-up of prevention of mother-to-child transmission (PMTCT) of HIV services, led by UNICEF and partners, is one of the greatest public health achievements of recent times. In 2017, Malaysia was certified by the World Health Organization for the elimination of mother-to-child transmission of HIV (EMTCT).

~~Malawi Guidelines for HIV Clinical Management in Children ...~~

- Malawi created and successfully scaled up B+, a highly effective PMTCT program
- Malawi has sustained B+ successes with excellent PMTCT and maternal ART coverage, efforts to retain women and infants, and decreasing vertical transmission moving close to elimination
- Malawi has also moved beyond B+, innovating and addressing other gaps in PMTCT such as syphilis and EID testing coverage with interventions such as its HDA program.
