OECD Model Tax Convention 2017 (Full Version - with ...

Interest is commonly known as the income earned on the movable capital. Unlike dividends, interest does not suffer the economic double taxation and is not taxed both at the hands of the debtor and the creditor. The payer of the interest gets the deduction, whereas the recipient has to discharge taxes. Article 11 of the OECD Model Tax Convention covers the taxation of interest income.

Income from Interest | Article 11 | OECD Model Tax Convention

The Model Tax Convention, and the worldwide network of treaties based on it, provide clear consensual rules for taxing income and capital across countries, while avoiding having income or capital taxed twice by two different countries.
