An unforgettable portrait of one family's journey through the second half of the twentieth century, The End of the Point artfully probes the hairline fractures hidden beneath the surface of our lives and traces the fragile and enduring bonds that connect us. With subtlety and grace, Elizabeth Graver illuminates the powerful legacy of family and place, exploring what we are born into and what we pass down, preserve, cast off, or willingly set free.

Despite the fact that the fundamental laws of physics don't distinguish between past and future, we do. And so, for over a century, the greatest minds have sought to understand why time seems to flow in one direction, ever forward. In The Janus Point, Julian Barbour, author of the classic The End of Time, offers a radically new answer: it doesn't.
