Presents a survey of sixty Venetian Renaissance paintings of the calibre of Bellini and Titian's "Feast of the Gods" in Washington and Giorgione's "Laura and Three Philosophers" in Vienna.

Pastoral Drama and Healing in Early Modern Italy represents the first full-length study to confront seriously the well-rehearsed analogy of the pastoral poet as healer. Usually associated with the edifying function of the Renaissance pastoral, this analogy, if engaged more profoundly, raises a number of questions that remain unanswered to this day. How does the pastoral heal? How exactly do the inner workings of the text cater to the healing? What socio-cultural conventions make the healing possible? What are the major problems that pastoral poetry as mimesis must overcome to make its healing morally legitimate? In the wake of Derrida's seminal work on the Platonic pharmakon, which has in turn led recent criticism to formulate a much more concrete understanding of the theater/drug analogy, the stringent approach to the therapeutic function of the Renaissance pastoral offered in this work provides a valuable critical tool to unpack the complexity contained within a little-understood cliché.

Go Southwest, Old Man, a sort of personal remake of 'Go West, Young Man', the founding episteme of the American nineteenth century, conciliates these two souls (well, not to be pretentious, let's simply say two sides) that have actually always lived in harmony. This is a book generated by a quarter of a century spent wandering around the canyons and deserts of Arizona, Colorado, Utah and, above all New Mexico, with a view to penetrating the by now universal legend of the West, approaching the cultures (English, Hispanic and native American), and mastering the literature. The slant is composite: melding the scholarly with the informative and the travel journal, and the writing is composite too, because the book speaks English and Italian. It talks about cinema (lots of John Ford) and about detective stories, the most popular genre here, about visual arts and Latino folklore, about the legend of the West, the so-called 'Soul of the Southwest', and the kitsch style of Santa Fe. And it talks about (and with) some of the greatest writers that the Southwest has spawned: Rudolfo Anaya, Stanley Crawford, John Nichols and Hillerman. So what we have is a first-hand experience of the Southwest; where the ego is not entrenched within a precise disciplinary role but opens up - and exposes itself - to the thrilling risk of the discovery that can renew it.

Although throughout history women had been confined to enclosed spaces, the advent of courtly life and culture required that men and women would share and interact in public arenas like the princely courts, intellectual salons, or gambling houses. But also in all of these public spaces behavioral rules and regulations aimed to control women ' s body by equating honesty with chastity. In this monograph I analyze how in the XVI, XVII, and XVIII centuries women in general, and in particular prostitutes and courtesans, repeatedly challenged those rules in the attempt to affirm their individual freedom. I call this behavior «social amphibology », as just like amphibians these women were able to cross class boundaries and thrive in different social environments. My analysis has three complementary approaches. First, an historical approach where census documents and sumptuary laws are investigated in order to describe the ways in which the political establishment unsuccessfully attempts to enforce its rules over women ' s behavior. Second, a literary approach where works by Castiglione, Aretino, Bandello, and Veronica Franco are analyzed in order to emphasize the terminological proximity between the legal and the literary languages, and the evolution of the term «courtesan» with its attribute «honest». A third – visual – approach looks at prints of women ' s clothing, made by XVI and XVII century artists. The iconographic similarity of all of the images requires a set of rubrics or labels, as a way to control such visual amphibology. In the last segment of this monograph I apply a diachronic perspective to these visual representations as I show how contemporary art historians use the same means of categorization, used in previous centuries, to identify – without any definite proof – paintings and prints included in two recent art exhibitions.

In *The Conspiracy of Modern Art* the Brazilian critic and art-historian Luiz Renato Martins draws on Marxist theory to invite us to see familiar pictures anew.

While perturbative QCD methods fully describe experimental results at high energies, and chiral perturbation theory is the low energy effective theory of the strong interactions, a form of duality is observed connecting these two regimes. In these intermediate kinematics, a wide variety of reactions are observed which can be described simultaneously by single particle (quark) scattering, and by exclusive resonance (hadron) scattering. The contributions in this proceedings volume discuss recent and existing results, and aim to foster current and
