The horrific torture and execution of hundreds of thousands of Cambodians by Pol Pot's Khmer Rouge during the 1970s is one of the century's major human disasters. David Chandler, a world-renowned historian of Cambodia, examines the Khmer Rouge phenomenon by focusing on one of its key institutions, the secret prison outside Phnom Penh known by the code name "S-21." The facility was an interrogation center where more than 14,000 "enemies" were questioned, tortured, and made to confess to counterrevolutionary crimes. Fewer than a dozen prisoners left S-21 alive. During the Democratic Kampuchea (DK) era, the existence of S-21 was known only to those inside it and a few high-ranking Khmer Rouge officials. When invading Vietnamese troops discovered the prison in 1979, murdered bodies lay strewn about and instruments of torture were still in place. An extensive archive containing photographs of victims, cadre notebooks, and DK publications was also found. Chandler utilizes evidence from the S-21 archive as well as materials that have surfaced elsewhere in Phnom Penh. He also interviews survivors of S-21 and former workers from the prison. Documenting the violence

and terror that took place within S-21 is only part of Chandler's story. Equally important is his attempt to understand what happened there in terms that might be useful to survivors, historians, and the rest of us. Chandler discusses the "culture of obedience" and its attendant dehumanization, citing parallels between the Khmer Rouge executions and the Moscow Show Trials of the 1930s, Nazi genocide, Indonesian massacres in 1965-66, the Argentine military's use of torture in the 1970s, and the recent mass killings in Bosnia and Rwanda. In each of these instances, Chandler shows how turning victims into "others" in a manner that was systematically devaluing and racist made it easier to mistreat and kill them. More than a chronicle of Khmer Rouge barbarism, *Voices from S-21* is also a judicious examination of the psychological dimensions of state-sponsored terrorism that conditions human beings to commit acts of unspeakable brutality.

This book is the story of Peter Maguire's effort to learn how Cambodia's "culture of impunity" developed, why it persists, and the failures of the "international community" to confront the Cambodian genocide. Written from a personal and historical perspective, *Facing Death in Cambodia* recounts Maguire's growing anguish over the gap between theories of universal justice and political realities. Maguire documents the atrocities and the aftermath through personal interviews with victims and perpetrators, discussions with international officials, journalistic accounts, and government sources.

Account of an artist's experiences in prison during the Khmer Rouge regime in Cambodia.

On April 17, 1975, the Khmer Rouge entered Phnom Penh to open a new and appalling chapter in the story of the twentieth century. On that day, Pin Yathay was a qualified engineer in the Ministry of Public Works. Successful and highly educated, he had been critical of the corrupt Lon Nol regime and hoped that the Khmer Rouge would be the patriotic saviors of Cambodia. In *Stay Alive, My Son*, Pin Yathay provides an unforgettable testament of the horror that ensued and a gripping account of personal courage, sacrifice and survival. Documenting the 27 months from the arrival of the Khmer Rouge in Phnom Penh to his escape into Thailand, Pin Yathay is a powerful and haunting memoir of Cambodia's killing fields. With seventeen members of his family, Pin Yathay were evacuated by the Khmer Rouge from Phnom Penh, taking with them whatever they might need for the three days before they would be allowed to return to their home. Instead, they were moved on from camp to camp, their possessions confiscated or abandoned. As days became weeks and weeks became months, they became the "New People," displaced urban dwellers compelled to live and work as peasants, their days were filled with forced manual labor and their survival dependent on ever more meager communal rations. The body count mounted, first as malnutrition bred rampant disease and then as the Khmer Rouge singled out the dissidents for sudden death in the darkness. Eventually, Pin Yathay's family was reduced to just himself, his wife, and their one remaining son, Nawath. Wracked with pain and disease, robbed of all they had owned, living on the very edge of dying, they faced a future of escalating horror. With Nawath too ill to travel, Pin Yathay and his wife, Any, had to make the heart-breaking decision whether to leave him to the care of a Cambodian hospital in order to make a desperate break for freedom. "Stay alive, my son," he tells Nawath before embarking on a nightmarish escape to the Thai border. First published in 1987, the Cornell edition of *Stay Alive, My Son* includes an updated preface and epilogue by Pin Yathay and a new foreword by David Chandler, a world-renowned historian of Cambodia, who attests to the continuing value and urgency of Pin Yathay's message.

During the Khmer Rouge's brutal reign in Cambodia during the mid-to-late 1970s, a former math teacher named Duch served as the commandant of the S-21 security center, where as many as 20,000 victims were interrogated, tortured, and executed. In 2009 Duch stood trial for these crimes against humanity. While the prosecution painted Duch as evil, his defense lawyers claimed he simply followed orders. In *Man or Monster?* Alexander Hinton uses creative ethnographic writing, extensive fieldwork, hundreds of interviews, and his experience attending Duch's trial to create a nuanced analysis of Duch, the tribunal, the Khmer Rouge, and the after-effects of Cambodia's genocide. Interested in how a person becomes a torturer and executioner as well as the law's ability to grapple with crimes against humanity, Hinton adapts Hannah Arendt's notion of the "banality of evil" to consider how the potential for violence is embedded in the everyday ways people articulate meaning and comprehend the world. *Man or Monster?* provides novel ways to consider justice, terror, genocide, memory, truth, and humanity.

Swept up in the maelstrom of Stalin's Great Terror of 1937-1938, nearly a million people died. Most were ordinary citizens who left no records and as a result have been completely forgotten. This book is the first to attempt to retrieve their stories and reconstruct their lives, drawing upon recently declassified archives of the former Soviet Secret Police in Kiev. Hiroaki Kuromiya uncovers in the archives the hushed voices of the condemned, and he chronicles the lives of dozens of individuals who shared the same dehumanizing fate: all were falsely arrested, executed, and dumped in mass graves. Kuromiya investigates the truth behind the fabricated records, filling in at least some of the details of the lives and deaths of ballerinas, priests, beggars, teachers, peasants, workers, soldiers, pensioners, homemakers, fugitives, peddlers, ethnic Russians, Ukrainians, Poles, Germans, Koreans, Jews, and others. In recounting the extraordinary stories gleaned from the secret files, Kuromiya not only commemorates the dead and forgotten but also proposes a new interpretation of Soviet society that provides useful insights into the enigma of Stalinist terror.

Comprehensively updated with many new speeches including Earl Spencer's lament to "The extraordinary and irreplaceable Diana", Nikita Khrushchev's secret speech of 1956 signalling the beginning of the end of Stalinist Russia, Patrick Pearse's rousing funeral oration that fanned the flames of the Easter Rising, Kevin Rudd's historic apology to Australia's mistreated Aborigines and Barack Obama's momentous US election night victory speech. Alongside these are the finest war cries of Winston Churchill, Martin Luther King's prophetic "I have a dream" and "I've seen the promised land" speeches, the inspiring words of JFK and impassioned pleas from Nelson Mandela-the first at his trial in 1964 and the second on his election as president of South Africa in 1994. In addition are historic speeches from Elizabeth I, Charles I, Oliver Cromwell, George Washington, Napoleon Bonaparte, Abraham Lincoln, Emmeline Pankhurst, Mahatma Gandhi, Vladimir Lenin, Neville Chamberlain, Adolf Hitler, Joseph Stalin, Franklin D. Roosevelt, Charles de Gaulle, General George S. Patton, J Robert Oppenheimer, Mao Zedong, Malcolm X, Richard M. Nixon, Pope John Paul II, Vaclav Havel, Elie Wiesel, Mikhail Gorbachev and many other great historical figures. *Speeches that Changed the World* presents over 50 momentous and thought-provoking speeches from throughout history. Complete with a potted biography of each speaker, and telling the story of why each oration was significant and what happened as a result, this is a gripping history of the world told through its greatest and most impassioned speeches.

Written by a Zen priest, this book explodes the myth of Zen Buddhism as a peaceful religion.

Can Buddhism, widely regarded as a religion of peace, also contribute to acts of terrorism? Through an insider's view of right-wing ultranationalism in prewar Japan, this powerful book follows a band of Zen Buddhist-trained adherents who ardently believed so. Brian Victoria, himself a Zen priest, tells the story of a group of terrorists who were responsible for the assassination of three leading political and economic figures in 1932. Victoria provides a detailed introduction to the religious as well as political significance of the group's terrorist beliefs and acts, focusing especially on the life and times of the band's leader, Inoue Nisshō. A deeply troubled youth, Inoue became a spy in Manchuria for the Japanese Army in 1909, where he encountered Zen for the first time. When he returned to Japan in 1921, he determined to resolve his deep spiritual discontent through meditation practice, which culminated in an enlightenment experience that resolved his long-term doubts. After engaging in "post-enlightenment training" under the guidance of Rinzai Zen master Yamamoto Gempō, Inoue began a program of training the "patriotic youth" who formed the nucleus of his terrorist band. After the assassinations, Inoue and his band were sentenced to life imprisonment, only to be released just a few years later in 1940. Almost unbelievably, Inoue then became the live-in confidant of Prime Minister Konoe Fumimaro, a position he held through the end of WWII. In the postwar era, Inoue reinvented himself again as the founder and head of yet another band of ultranationalists known as the "National Protection Corps." His eventful life came to an end in 1967. Victoria concludes with an assessment of the profound impact of the assassinations, which culminated in Japan's transformation into a totalitarian state and set the stage for Pearl Harbor. The author also examines the connection of Buddhism to terrorism more broadly, considering the implications for today's Islamic-related terrorism.
